

Scope of Services

Medical Emergency Alert Services (MEAS) Single / Couple

In MEAS, we offer a wearable MEAS device (optional) which allows the Member the option of real time location monitoring / tracking, real time alert in case of a fall and a one touch solution to call the Company's National Alarm Centre ("**NAC**") directly from the device. The Member can also call the NAC from their mobile phone or their landline phone in an emergency to raise an alarm.

Once the alarm is activated, in case of a medical emergency, the NAC will immediately contact the enlisted ambulance service providers for immediate transportation to the pre-selected hospital along with a Service Provider nominated person who will escort the Member to the hospital and will assist with the hospitalization process.

The NAC will then inform the Sponsor or the Nominee or local contact (as mentioned in the Enrolment Form) about the medical emergency. If required and agreed by Member, during the period of hospitalization, the Service Provider's nominated person can visit the Member during the permitted hospital visiting hours to get an update on the Member, the treatment done and the billing amount, which would be conveyed to the Sponsor or the Nominee or local contact.

There is no limit on the number of times that the Member may raise an alarm for medical emergency for hospitalization or the total number of hours required to deliver the service.

To avail of this service, the Member can choose the tenure of services for a period of 3 (three) or 6 (six) or 12 (twelve) months. The basic monthly subscription charge will increase by 10% (ten percent) on the completion of every 12 (twelve) months of membership.

To get the MEAS device a one-time refundable security deposit ("**Security Deposit**") will have to be maintained with the Service Provider which would be returned to the Member once the device is returned to the Service Provider in a working condition along with the accessories issued to the Member, but after deduction of cost of any repair work (if required) or any other dues outstanding to the Service Provider from the Member. The MEAS device along with all other accessories are properties of the Service Provider and for any normal wear and tear or repair the device would be serviced by the Service Provider only.

The Service Provider may engage with its external partners to ensure end to end service to its Members, including storage of such electronic medical records, but the Service Provider will be responsible for the delivery of the service and for arranging alternatives in case of any problems faced by the Members.

All costs incurred for services rendered by any third party, as agreed by Member, for example – ambulance, taxi, porter, hospital admission chargers, ayah, nurse etc. will be borne by the Member at actuals.

- **Morning / Evening Call (Complimentary Daily)**

This is a complimentary service currently offered and the Member can choose not to avail of this service.

During such calls we check how the Members are doing, whether the MEAS device is working properly (if the Member has a MEAS device) and if they need any help with any out-of-home work. In such calls we inform the Members on their weekly visit 24 (twenty four) hours prior to delivery of the service.

- Out of Home Assistance (OHA) (Complimentary 10 hours per month)

The Member has an option to cancel the weekly visit if not required and reschedule the same on a different date but in the same calendar month. The Member can also call the NAC for a single service on ad hoc basis, payment for which will be collected post- delivery of the same. The delivery of such re-scheduled or ad hoc service will strictly be as per the availability of service slot at that point of time. In case of non-availability of service slot, the Member will be contacted by the Service Provider for suitable alternatives.

Every month the Member will receive a summary report of the weekly visits rendered in the month.

Any additional hour of usage of service, i.e., beyond 600 minutes (10 hours) in a month would be charged at the rate of current OHA service charge for 60 minutes (one hour) plus taxes. Please note that this charge can be revised at the discretion of the Service Provider with or without prior intimation.
